Dear Sir/Madam,

Due to technical difficulties, we have decided to modify the schedule for nominations and submissions as highlighted in this invitation and the attached Conference Announcement.

Please find attached the announcement of an International Conference on: "The Population Aging Explosion: Opportunities and Challenges", which is organized by the Indonesian Academy of Sciences (AIPI), in conjunction with a workshop on "Designing Age Friendly Communities to Enhance Aging in Place", organized by the NCOP (the National Commission for Older Persons, Indonesia). The Conference and Workshop are to be held on 11-14 October 2011 in Bali, Indonesia.

The objectives of the Conference are to:

1. bring together scientists and experts across the full range of scientific disciplines along with government, business community and civil society to share and explore current issues and developments in population aging;
2. stimulate discussions to improve the knowledge base and identify priorities for future research, action programs, and commercial development;
3. enhance informed policy and planning in anticipation of the future rapid growth among the elderly population;
4. identify key incentives that can help stimulate further research and development in addressing issues related to opportunities and challenges of population aging; and
5. bring the importance and imminence of impending rapid growth in the elderly population to the attention of government and to seek recommendations for action.

We would like to invite you and whoever is interested in attending the meetings. Due to our financial constraint, however, all are requested to meet the costs of participation as specified in the announcement.

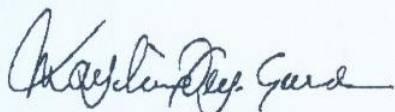

We look forward to welcoming participants from your Academy at the upcoming international conference and meeting-workshop.

We would appreciate receiving initial nominations no later than **July 31, 2011**.

We hope to welcome you and/or your nomination in early October 2011 to the beautiful Island of the Gods, Bali.

Thank you for your cooperation.

Sincerely yours,

*Professor Mayling Oey-Gardiner, Ph.D.
